COR 0231

Copy 4 of 4

20 November 1958

MEMORANDUM FOR: Project Security Officer

25X1A

SUBJECT: Clearances for [REDACTED]

1. In order to obtain maximum exploitation of the CORONA reconnaissance capability, it is necessary that we have developed a detailed climatological study of the areas of interest.

25X1A

2. [REDACTED] of Headquarters A&S, as well as [REDACTED] of our office have indicated that [REDACTED] is considered to be the best qualified individual who is available to provide this service to the Project.

25X1A  
25X1

3. It is therefore requested that he be cleared for CORONA. It is also desired that he be cleared for CHALICE information. From a weather and climatology standpoint the two programs are intermeshed to a considerable degree. It is understood that he presently has an Air Force SI clearance and has been working with other parts of the Agency on other classified projects.

4. Request this clearance be expedited as the studies which are mentioned above and which are quite involved will be needed prior to the CORONA launching.
